

DAILY STRUCTURE

The five-day event will be interwoven in such a way that generates an expanded worldview for speakers and attendees alike. Participants will begin the day with contemplation and meditation, followed by a keynote presentation that immerses the gathered community in an atmosphere of information, opportunity and challenge.

On each of three afternoons, "The Science of Consciousness: Cracking the Noetic Code," "Governance as if the Future Matters" and "Aligning the Wheels of Compassion and Action" will be the central themes for a series of breakout sessions exploring strategic solutions at every level from personal to global.

A second round of discussion groups will give attendees opportunity to share grassroots models and resources and pursue a deeper synthesis by looking at practices and programs attendees, themselves, bring to the gathering.

Evenings at the conference will be dedicated to connection! Enjoy the Compassion Banquet, concerts, skits and comedy, warm evenings by the pool and on the conversation-friendly grounds of the beautiful Emeralds Resort and Spa.

MUSIC FOR THE SPIRIT

Awakened World is famous for its deeply grounding and spiritually uplifting music. Old friends and new voices will weave their magic again this year, including a special concert by Deva Premal and Miten as part of their 2008 tour.

THE EVOLUTION OF REVOLUTION

What are the threads that weave together the complexities of spiritual principle, the technologies tracing human consciousness, and the establishment of an evolutionary culture right here and right now? In these times of critical shift, standing up for a compassionate, sustainable, and just new society is the most exciting conversation on the planet.

Pioneering spiritual activism in 1997 with the Synthesis Dialogues for His Holiness the Dalai Lama and the Season for Nonviolence, AGNT collaborated with the Institute of Noetic Sciences in 2003 to cross-cultivate the conference field by featuring best practices in spirit, science, and unified action.

Our conference dates were chosen to land a month prior to the 2008 general election in order to facilitate a real-time gathering that supports our inclusive motivations, message and morale. Needless to say, November 2008, is a critical shift-point for our common future.

Distinguished presenters include a select group of integral thinkers who will take us to the current edge of critical understanding in the fields of spirituality, consciousness studies, and social systems.
