- *ground our shared vision in a plan of action with tools to support*

The Evolution of Spirituality and Society

In an age of accelerating cultural evolution and a profound turning of the great axis of human spirituality, religion, and culture... We will gather in Rome and Florence as thought leaders, activists, and visionaries to explore a possible future of spiritual citizenship and evolutionary activism in the most critical domains of human possibility... At their very heart lie new understandings of peace and nonviolence, social / economic justice and human rights, ecological sustainability, and personal transformation.
